Schoner System Birth Time Correction Questionnaire.

Instructions.

Please provide as many dates for the events listed below as you can.

Some of the events listed may have happened more than once in your life (e.g.: a real estate procedure or move), in which case please provide the date for each instance of their occurrence.

It is not necessary to provide one or more dates for every one of the events listed below, you only need to provide information for the events that apply to you. If one of the events listed below actually happened but you cannot remember the exact date of its occurrence, please try to give a close approximation of the period of time in which this happened (e.g.: "sometime in the first week in March 1984"). Of course, the more information you can supply, the better; more dates of events means that we will be able to calculate your birth time with greater accuracy, which in turn means that a greater accuracy will be possible in any astrological progressions and other chronodynamic calculations.
